EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William Conger on January 24, 2007. The application has been amended as follows:

Claims 14-19 have been cancelled.

2. The following is an examiner's statement of reasons for allowance: The claimed invention distinguishes itself from prior art by the use of a bimodal dispersion of silica particles in a electrophoresis process, wherein the term bimodal is known in the art as having two distinct populations of particles with distinct average particle size that different from each other. The usual occurrence is the use of a coarse particle sized population and a fine particle sized population in the same dispersion. More importantly, the claimed invention distinguishes itself from prior art by the use of a membrane with an average pore size, which is larger than the average particle size of the smaller population. Prior art fails to disclose a membrane with a larger average pore size than the particles used. In fact, most prior art demonstrate the use of a membrane that has an average pore size that smaller than the particles in order to retain the particles on the membranes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Queenie Dehghan whose telephone number is (571)272-8209. The examiner can normally be reached on Monday through Friday 8:30am - 5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Steven Griffin can be reached on 571-272-1189. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
